

STATEMENT ON EXPOSURE TO ELECTROMAGNETIC FIELDS

EQUIPMENT

Type of equipment:	Radiator thermostat with radio
Type / Model:	Living Connect
Manufacturer:	Danfoss A/S
By request of:	Danfoss A/S

STANDARD

EN 62479 (2010)

ESTIMATION

The product has a maximum emitted power of less than 20 mW.

Radio test report reference: Intertek 1112984-1

A worst case assumption according to EN 62479 will be that all transmitted power (20 mW) is absorbed within 10g of tissue. The basic restriction is 2 W/kg count down to 10g will be 20 mW/10g.

Thus it is determined that the requirements according to the referred directive are fulfilled without testing.
