**Manufacturer’s Declaration of Compliance with Regulation (EU)  
2023/2854 (Data Act)**

**Danfoss A/S**

Danfoss Climate Solutions Segment/HydronicS Division/PL34 Room Controls

declares under our sole responsibility that the

**Product category:**                   **Smart Heating**

**Type designation(s):**           **Danfoss Icon2™ Room Thermostat**

Covered by this declaration is in conformity with Regulation (EU) 2023/2854 (the Data Act), provided that the product is used in accordance with our instructions.

By purchasing this Danfoss Icon2™ Room Thermostat, you acknowledge and agree that Danfoss will collect, access, and process data generated by the use of the Danfoss Icon2™ Room Thermostat in accordance with the Data Act and the contractual arrangements agreed between the parties. Data will be processed in compliance with applicable legal obligations.

**a. Data generated by the Danfoss Icon2™ Room Thermostat**

- Danfoss Icon2™ Room Thermostat continuously measures, calculates, and updates operational parameters relevant to control the temperatures in the heating system.
- All data are available on the Zigbee 3.0 interface.
- The complete ZigBee 3.0 API specification including parameter names, units, scaling factors, and descriptions, are publicly available on [Danfoss Icon2™ Support page](#)

**b. Data access**

- All operational and configuration data is available in real time via the ZigBee 3.0 interface.
- The complete ZigBee 3.0 API specification including parameter names, units, scaling factors, and descriptions, are publicly available on [Danfoss Icon2™ Support page](#)

Danfoss only vouches for the correctness of the English version of this document. In the event of the document being translated into any other language, the translator concerned must be liable for the correctness of the translation.

- Access to and use of the ZigBee interface and data is open to the product owner or any third party they authorize without requiring Danfoss intervention.

**c. Third-party access and data portability**

- Users may connect their own compatible ZigBee gateway and software to access live data and/or share data with third-parties.
- Information on how to connect Danfoss Icon2™ Room Thermostat wireless to a Zigbee network can be found here: [Danfoss Icon2™ Support page](#)
- Granting such access to third parties is permitted by Danfoss and does not void the product warranty.

**Note to the Customer**

- This statement covers the compliance of the Danfoss Icon2™ Room Thermostat with the EU Data Act regarding measured, stored, processed and live operational data.
- Optional services, such as Danfoss Ally™, have separate compliance documents.
