**b. Data access**

- All operational and configuration data is available in real time via the Bluetooth™ interface.
One option for controlling and getting access to the data is using the **Danfoss Eco™ App**
- The complete Bluetooth™ API specification including parameter names, units, scaling factors, and descriptions, are publicly available on [Danfoss Eco2™ Support page / Documents](#)
- Access to and use of the Bluetooth™ interface and data is open to the product owner or any third-party they authorize without requiring Danfoss intervention.

c. Third-party access and data portability

As described above, all operational and configuration data are available at the Bluetooth™ interface. Access to and use of the Bluetooth™ interface and data is open to the product owner or any third-party they authorize without requiring Danfoss intervention.

Note to the Customer

- This statement covers the compliance of the Danfoss Eco2™ Radiator Thermostat and related Danfoss Eco™ App with the EU Data Act regarding measured, stored, processed and live operational data.
