GND is common for all signals

7

Serial number and QR code can be removed from the NovoCon® L/XL label and added to installation drawing.

8

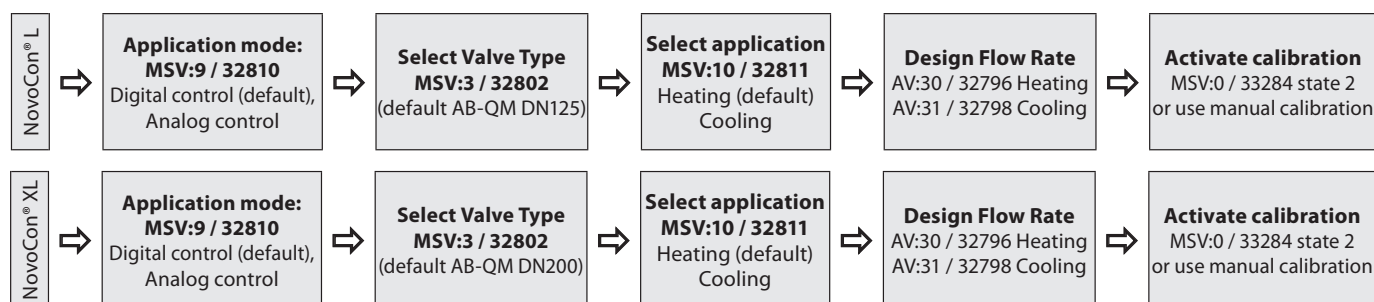

DIP Switch

Dip switches for addressing and bus protocol selection are located under the lid of the actuator. DIP Switches 1 to 7 are used to assign the MAC address manually. Default MAC address assignment method is Auto MAC addressing for BACnet MS/TP and DIP Switches for Modbus RTU. For termination of last unit on the field bus, turn DIP Switch 8 ON. Dip switch 9 is not used. Dip switch 10 is used to select between BACnet MS/TP (OFF=Default) and Modbus RTU (ON). When the protocol is changed on DIP Switch 10, a power cycle is required.

## 9 Initial configuration

10

#### Safety Note

To avoid injury and damage to persons and devices, it is absolutely necessary these instructions are carefully read and observed prior to assembly and commissioning. Necessary assembly, start-up, and maintenance work must be performed only by qualified, trained and authorised personnel. Switch off the pump and the power line before mounting and wiring the actuator.

#### Safety Note

Connect via safety isolating transformer. Galvanic separations shall be provided for segments crossing buildings.

#### Firmware update

We recommend to validate the firmware version before installation. The latest firmware can be downloaded at [www.novocon.com](http://www.novocon.com) by selecting the tab: Support files.

#### Safety Note

If the NovoCon® L/XL network is supplied with two or more AC power boosters, caution must be observed when disconnecting one of the transformers from the high voltage power line. As the NovoCons may be connected in a daisy chain, there may be high voltage on the primary side of the disconnected power supply. Disconnect always both the primary and secondary side of the transformer.

#### Disposal instruction

This product should be dismantled and its components sorted if possible, in various groups before recycling or disposal. Always follow the local disposal regulations.

**NovoCon® L/XL**
