

Data Sheet

Angle-seat externally operated valve Type **AV210A - AV210H**

For use in industrial applications

AV210 is an externally operated valve for use in demanding industrial applications.

The valve can operate at very high medium temperatures and viscosities, and is insensitive to dirt particles in the medium; thus, it is often called a “troubleshooter” valve. The valve is available in bronze and stainless steel.

Features

- For all fluids and gases
- Flow range: 0 – 234 m³/h / 0 – 275 USgal/min
- Unpressurized closed (NC) bidirectional versions and unpressurized opened (NO) version closing against the flow direction
- The valves can be used for rough vacuum
- Control connection G 1/8
- Valves comply with Pressure Equipment Directive 97/23/EC
- NC version: bi-directional, closing against or closing with the flow direction
- NO version: always closing against the flow direction

1 Portfolio overview

Table 1: Portfolio overview

Features	AV210	
		
Body material	Brass	Stainless steel
DN [mm]	15-50	15-50
Connection ISO	G 3/8- G 2	G 1/2-G2
Connection NPT (Only NC)	1/2-2	1/2-2
Sealing material	PTFE	PTFE
Function	NC, NO	NC, NO
Kv [m³/h]	4.5-67	4.9-67
Control head diameter [mm]	40, 50, 63, 90, 110	50, 63, 90, 110
Differential pressure range [bar]	0-16	0-16
Control pressure NC [bar]	4-10	4-10
Control pressure NO [bar]	1.8-10	1.8-10
Function NC	Closing against and with the flow	Closing against and with the flow
Function NO	Only closing against the flow	Only closing against the flow
Temperature range [°C]	-30-180	-30-180

2 Functions

2.1 NC ISO / NPT Connection

AV210 unpressurized closed version (NC) bidirectional.

The valve is kept closed by the spring (1), which presses the seat gasket (2) against the valve seat (3). When the pressure is applied to the control connection (4), the control piston (5), the spindle (6) and thus the seat gasket (2) are raised, and the valve opens with or against the pressure of the medium.

1	Spring
2	Seat gasket
3	Valve seat
4	Control connection
5	Control piston
6	Spindle

2.2 NO ISO Connection

AV210 unpressurized open version (NO):

The valve is kept open by the spring (1), which keeps the seat gasket (2) away from the valve seat (3). When pressure is applied to the control connection (4), the control piston (5), the spindle (6) and thus the seat gasket (2) are lowered, and the valve closes against the pressure of the medium.

1	Spring
2	Seat gasket
3	Valve seat
4	Control connection
5	Control piston
6	Spindle

3.1 Technical data

Table 2: Technical data

Media	Bronze	For water, oil and compressed air
	Stainless	For neutral, aggressive liquid and gaseous media
Media temperature [°C] / [°F]	PTFE	-30-180 °C / -22-356 °F
Ambient temperature [°C] / [°F]	-30-60 °C / -22-140 °F	
Pressure	Pressure range can be extended for use in rough vacuum, typically up to 99% vacuum (10 mbar), depending on the application	
Kv value [m³/h]	DN15	4.5-5.7 m³/h
	DN20	10 m³/h
	DN25	20 m³/h
	DN32	29 m³/h
	DN40	46 m³/h
	DN50	67 m³/h
Min. Opening differential pressure [bar]	0 bar	
Max. Opening differential pressure [bar]	Up to 30 bar	
Max. working pressure [bar]	Up to 30 bar	
Max. test pressure [bar]	DN1.5-4.5	52.5 bar
	DN6-10	37.5 bar
	DN15-25	24 bar
Control medium	Air	
Tightness	Internally / Externally:	Better than 0.4 mbar l/sec (25 ccm air per min.)
Viscosity [cSt]	Max. 600 cSt / 3000 SSU

4.2 Accessories

Position indicator

Figure 14: Position indicator

Features

The control box to check the open/closed positions with two mechanical limit switches is suitable for assembling on the whole range of valves.

Level of protection : IP65

Ambient temperature: from -20 – 70 °C (-4 – 158 °F)

Angle-seat externally operated valve, type AV210A - AV210H

Access lead nr.2 PG11

Body material: Polyamide (cap in Lexan/polycarbonate)

Repair kit

The repair kit contains :

1. Two gaskets (1) (On actuator size 40 (diameter control head) only one gasket included).
2. One complete valve plate unit (plug and pin) (2).

NOTE:

One gasket is for bronze, and one is for stainless steel.

Control valves, types EV310A and EV310B

Figure 20: Type EV310A

Figure 21: Type EV310B

Angle-seat externally operated valve, type AV210A - AV210H

- Valves for industrial applications
- Available in de-energized closed and de-energized open versions
- Available with or without manual operation

See separate data sheets regarding code numbers, technical data and coil options for Danfoss EV310A and EV310B valves.

5 Online support

Danfoss offers a wide range of support along with our products, including digital product information, software, mobile apps, and expert guidance. See the possibilities below.

The Danfoss Product Store

The Danfoss Product Store is your one-stop shop for everything product related—no matter where you are in the world or what area of the cooling industry you work in. Get quick access to essential information like product specs, code numbers, technical documentation, certifications, accessories, and more.

Start browsing at store.danfoss.com.

Find technical documentation

Find the technical documentation you need to get your project up and running. Get direct access to our official collection of data sheets, certificates and declarations, manuals and guides, 3D models and drawings, case stories, brochures, and much more.

Start searching now at www.danfoss.com/en/service-and-support/documentation.

Danfoss Learning

Danfoss Learning is a free online learning platform. It features courses and materials specifically designed to help engineers, installers, service technicians, and wholesalers better understand the products, applications, industry topics, and trends that will help you do your job better.

Create your Danfoss Learning account for free at www.danfoss.com/en/service-and-support/learning.

Get local information and support

Local Danfoss websites are the main sources for help and information about our company and products. Find product availability, get the latest regional news, or connect with a nearby expert—all in your own language.

Find your local Danfoss website here: www.danfoss.com/en/choose-region.

Spare Parts

Get access to the Danfoss spare parts and service kit catalog right from your smartphone. The app contains a wide range of components for air conditioning and refrigeration applications, such as valves, strainers, pressure switches, and sensors.

Download the Spare Parts app for free at www.danfoss.com/en/service-and-support/downloads.
