

Data Sheet

Pressure transmitter Type **MBS 5100** and **MBS 5150**

For marine applications

The ship approved high accuracy block pressure transmitter is designed for use in almost all marine applications. MBS 5150 with integrated pulse snubber is designed for use in marine applications with severe medium influences like cavitation, liquid hammer or pressure peaks and offers a reliable pressure measurement, even under harsh environmental conditions.

The transmitters can be easily mounted directly on the MBV 5000 block test valve or the threaded pressure connection can be used.

The flexible pressure transmitter programme covers a 4 – 20 mA output signal, absolute or gauge (relative) versions, measuring ranges from 0 – 4 to 0 – 400 bar with zero and span adjustment.

Excellent vibration stability, robust construction, and a high degree of EMC / EMI protection equip the pressure transmitter to meet the most stringent marine requirements.

Features

Features

- Designed for use in severe maritime environments
- MBS 5150 with integrated pulse-snubber is suitable in marine applications with severe medium influences like cavitation, liquid hammer or pressure peaks and offers a reliable pressure measurement, even under harsh environmental conditions
- Pressure connection of acid-resistant stainless steel (AISI 316L)
- Pressure ranges in relative (gauge) or absolute from 4 up to 400 bar
- Output signal: 4 – 20 mA
- A wide range of pressure connections
- Fully digitally compensated
- Accuracy 0.3% FS (max)
- UL approved
- Several Marine approvals

Application

Application and media conditions for MBS 5150

Figure 1: MBS 5150

Application

Cavitation, liquid hammer and pressure peaks may occur in hydraulic systems with changes in flow velocity, e.g. fast closing of a valve or pump starts and stops. The problem may occur on the inlet and outlet side, even at rather low operating pressures.

Media condition

Clogging of the nozzle may occur in liquids containing particles. Mounting the transmitter in an upright position minimizes the risk of clogging, because the flow in the nozzle is limited to the start-up period until the dead volume behind the nozzle orifice is filled. The media viscosity has only little effect on the response time. Even at a viscosities up to 100 cSt, the response time will not exceed 4 ms.

Product specification

Technical data

Table 1: Performance (EN 60770)

Description	Values
Accuracy (incl. non-linearity, hysteresis and repeatability)	≤ ± 0.1% FS (typ.)
	≤ ± 0.3% FS (max.)
Non-linearity BFSL (conformity)	≤ ± 0.2% FS
Hysteresis and repeatability	≤ ± 0.1% FS
Response time	Liquids with viscosity < 100 cSt
	Air and gases (MBS 5150)
Overload pressure (static)	< 4 ms
Burst pressure	< 35 ms
Power-up time	6 × FS (max. 1500 bar)
Durability, P: 10 – 90% FS	6 × FS (max. 2000 bar)
	< 50ms
	>10 × 10 ⁶ cycles

Table 2: Electrical specifications

Description	Values
Nom. output signal (short-circuit protected)	4 – 20 mA
Supply voltage [UB], polarity protected	9 – 32 V DC
Supply voltage dependency	≤ ± 0.1 % FS / 10 V
Current limitation (linear output signal up to 1.5 × rated range)	22.4 mA
Load [RL] (load connected to 0 V)	RL ≤ (U _B - 9 V) / 0.02 A [Ω]

Table 3: Environmental conditions

Description	Values
Sensor temperature range	Normal -40 – 85 °C
Media temperature range	-40 – 85 °C
Ambient temperature range (depending on electrical connection)	-40 – 85 °C
Compensated temperature range	0 – 80 °C
Transport / storage temperature range	-50 – 85 °C
EMC – Emission	EN 61000-6-3
EMC – Immunity	EN 61000-6-2
Insulation resistance	> 100 MΩ at 500 V
Mains frequency test	Based on SEN 361503
Vibration stability	Sinusoidal
	Random
Shock resistance	Shock
	Free fall
Enclosure (IP protection fulfilled together with mating connector)	IP65

Table 4: Explosive atmospheres

Zone 2 applications ⁽¹⁾	  II 3G Ex ce IIA T3 Gc -10°C < Ta < +85°C	EN60079-0, EN60079-7
------------------------------------	--	----------------------

⁽¹⁾ When used in ATEX Zone 2 areas at low temperatures the cable and plug must be protected against impact.

Pressure transmitter, Type MBS 5100 and MBS 5150

Table 5: Mechanical characteristics

Description		Values
Electrical connection		EN 175301-803-A plug
Electrical connection, material		Glass filled polyamide PA 6.6

Online support

Danfoss offers a wide range of support along with our products, including digital product information, software, mobile apps, and expert guidance. See the possibilities below.

The Danfoss Product Store

The Danfoss Product Store is your one-stop shop for everything product related—no matter where you are in the world or what area of the cooling industry you work in. Get quick access to essential information like product specs, code numbers, technical documentation, certifications, accessories, and more.

Start browsing at store.danfoss.com.

Find technical documentation

Find the technical documentation you need to get your project up and running. Get direct access to our official collection of data sheets, certificates and declarations, manuals and guides, 3D models and drawings, case stories, brochures, and much more.

Start searching now at www.danfoss.com/en/service-and-support/documentation.

Danfoss Learning

Danfoss Learning is a free online learning platform. It features courses and materials specifically designed to help engineers, installers, service technicians, and wholesalers better understand the products, applications, industry topics, and trends that will help you do your job better.

Create your Danfoss Learning account for free at www.danfoss.com/en/service-and-support/learning.

Get local information and support

Local Danfoss websites are the main sources for help and information about our company and products. Find product availability, get the latest regional news, or connect with a nearby expert—all in your own language.

Find your local Danfoss website here: www.danfoss.com/en/choose-region.

Spare Parts

Get access to the Danfoss spare parts and service kit catalog right from your smartphone. The app contains a wide range of components for air conditioning and refrigeration applications, such as valves, strainers, pressure switches, and sensors.

Download the Spare Parts app for free at www.danfoss.com/en/service-and-support/downloads.
