

# 3 alarm levels for guests

COVID-19

## The red level

## The yellow level

## The green level

COVID-19

# The green level

## Basic rules:

- Regular hand disinfection
- Keeping the distance of 1.5 m

## Canteen:

- Having meals at designated places only
- Plexiglas screens separate the seats

## Admission of guests:

- Limiting the admission of external guests and guests from other Danfoss sites (admission only in business-justified situations)

## Separation of employee groups:

- Restricting entry to the production area or employees from the given site, but working outside the production area
- Permanent opening of doors in passageways

## Disinfection of surfaces:

- Disinfecting doorknobs, taps and handrails (twice a day)
- Disinfecting air conditioning vents (once a week, at the weekend)
- UV lamp disinfection after trainings in the screening room and in A201 in Grodzisk

## Taking temperature:

- Guests are kindly requested to take the temperature at the reception desk in the office building

COVID-19
