

Fact Sheet

EtherNet/IP™ module for VLT® soft starters

EtherNet/IP™

Network access

The EtherNet/IP™ module offers easy connectivity for VLT® soft starters to EtherNet/IP- based networks, such as Rockwell PLC systems.

The EtherNet/IP™ module supports

- VLT® Soft Starter MCD 500
- VLT® Compact Starter MCD 201*
- VLT® Compact Starter MCD 202*

No hub required

The module features a built-in 2-port switch, which facilitates traditional line network or Device Level Ring (DLR) topology – eliminating the need for expensive switches or hubs.

Easy to install and commission

The module plugs directly onto the side of the soft starter, allowing full control and monitoring across the network.

A built-in web server allows easy access to IP address configuration and network diagnostics.

Ordering number

175G9906

**Note: The EtherNet/IP™ module is not suitable for VLT® Compact Starter MCD 201 or MCD 202 using 380-400 V control voltage.*

Feature	Benefit
Connectivity to EtherNet/IP-based networks	Connects to Rockwell PLC-system via the Common Industry Protocol (CIP™)
EDS file	Swift integration into the PLC configuration tool
Two Ethernet ports with built-in switch	– Simple cabling – No need for expensive switches or hubs
Supports Device Level Ring (DLR) topology	A single fault in one of the Ethernet cables, or one of the devices in the ring, will not lead to loss of the communication to all devices.

2 port

**Ethernet module
for soft starters**

Danfoss Drives

Danfoss Drives is a world leader in variable speed control of electric motors. We aim to prove to you that a better tomorrow is driven by drives. It is as simple and as ambitious as that.

We offer you unparalleled competitive edge through quality, application-optimized products targeting your needs – and a comprehensive range of product lifecycle services.

You can rely on us to share your goals. Striving for the best possible performance in your applications is our focus. We achieve this by providing the innovative products and application know-how required to optimize efficiency, enhance usability, and reduce complexity.

From supplying individual drive components to planning and delivering complete drive systems; our experts are ready to support you all the way.

We draw on decades of experience within industries that include:

- Chemical
- Cranes and Hoists
- Food and Beverage
- HVAC
- Lifts and Escalators
- Marine and Offshore
- Material Handling
- Mining and Minerals
- Oil and Gas
- Packaging
- Pulp and Paper
- Refrigeration
- Water and Wastewater
- Wind

You will find it easy to do business with us. Online, and locally in more than 50 countries, our experts are never far away, reacting fast when you need them.

Since 1968, we have been pioneers in the drives business. In 2014, Vacon and Danfoss merged, forming one of the largest companies in the industry. Our AC drives can adapt to any motor technology and we supply products in a power range from 0.18 kW to 5.3 MW.
