

Installation Guide

Installation of BasicClip

1 Installation of BasicClip

Fig. 1: Attach the perimeter insulation with tape on wall.¹

Fig. 2: Begin laying insulation panels with the overlay flap upright against the wall.

Fig. 3: Observe the overlap throughout installation.

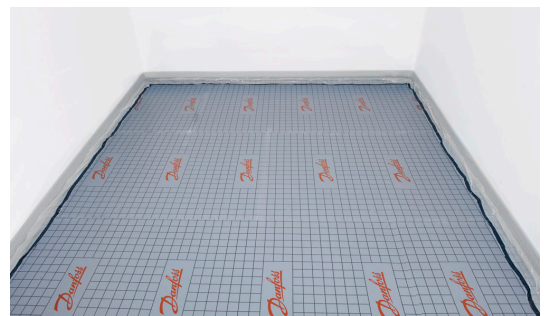

Fig. 4: Install insulation panels throughout all rooms.

Fig. 5: Attach perimeter insulation, tension free, by using the self adhesive strips.

Fig. 6: Joints without any overlap should be taped up. When using liquid screed tape overlapping joints.

Fig. 7: Tack down Danfoss composite pipe with two BasicClip clips per metre.

Fig. 8: Position tacker vertically over the required spot and fasten pipe by pushing down the tacker handle.

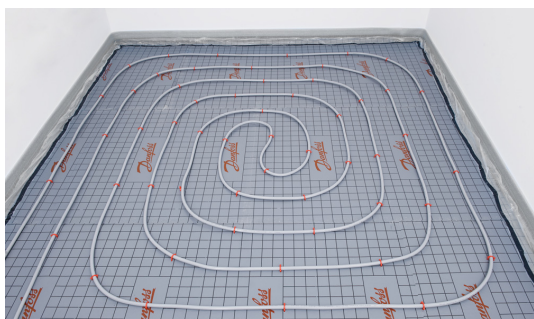

Fig. 9: Lay pipes in snail form throughout the room.

Fig. 10: Install expansion joint profile e.g. for door thresholds, as shown, using the Basic movement gap strip.

¹ If additional insulation is 5 cm thick or more, attach the perimeter insulation on the additional insulation.
