THORX™ Motors CLM T

New product

Why **THORX?**

Designed for the toughest jobs, our CLM T motors are engineered with our customers in mind. THORX Motors features a market leading high efficiency, smooth speed changeover, longer lifetime and integrated parking brake.

Easy-to-fit design

The novel shape with central flange fully utilizes the space within even the smallest tracks. CLM T motors are designed to be interchangeable with the most common solutions for track loaders today.

Configurable and competitive

The new motor series can be easily configured with a wide variety of sizes, mounting configurations and port options.

Features

- Available in two frame sizes
- Easy-to-fit central flange
- Market leading high efficiency
- 70% shock reduction at changeover
- Multiple mounting configurations
- Configurable port design
- Interchangeable design
- Speed Sensor
- Engineer-to-order

Applications

- Compact Track Loaders
- Compact Dozer Loaders
- Utility Loaders
