

NEODUL® L**Thermal insulation for heating water storage tanks**

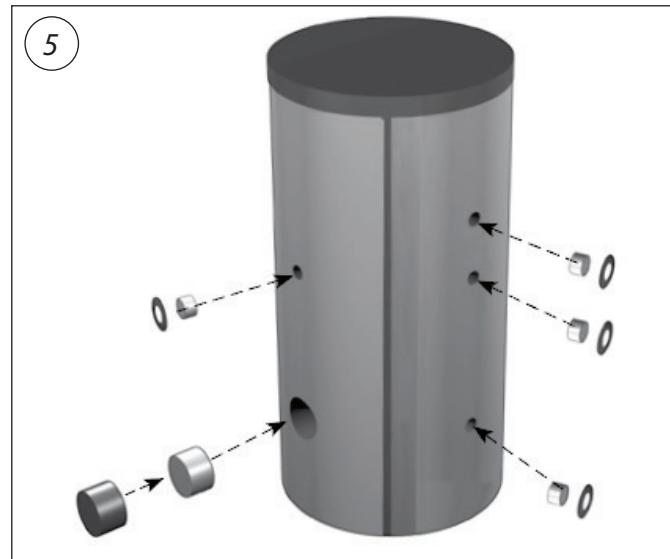

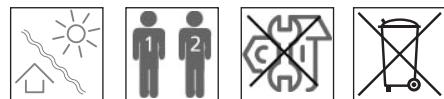

Series: PSS (up to 2000l volume)

**Assembly:**

NEODUL® L**Thermal insulation for heating water storage tanks**

Series:

PSS (up to 2000l volume)

- Assembly stand-ring and lower ring insulation before placing the tank on site (1)
- Put the insulation [jacket part(s)] around the tank(2 ff.); in case of several parts connect these parts by the zipper strip. Put the fleece mat, which is longer than the EPS-Layer, overlapping at the open joints in order to reduce the heat loss.
- Close the zipper of jacket part(s) (3)
- Put cover insulation on top (4)
- Place enclosed rosettes from outside into the recesses of shell part(s) for connections (pipes) (5)
