ACCPBT temperature sensors

The ACCPBT sensors can be used for surface mounting or insertable temperature monitoring in conjunction with Danfoss controllers in the following applications:

- Residential HVAC
- Commercial HVAC
- Commercial refrigeration
- Food retail refrigeration
- Transport refrigeration
- HACCP applications
- Industrial refrigeration

The ACCPBT sensors comes adjusted and complies with tolerance requirements according to EN 60751, class B for the Pt1000 elements and the NTC elements has 1% Beta value tolerance.

Features

Certificates, declarations and approvals

The list contains all certificates, declarations, and approvals for this product type. Individual code number may have some or all of these approvals, and certain local approvals may not appear on the list.

Some approvals may change over time. You can check the most current status at danfoss.com or contact your local Danfoss representative if you have any questions.

Online support

Danfoss offers a wide range of support along with our products, including digital product information, software, mobile apps, and expert guidance. See the possibilities below.

The Danfoss Product Store

The Danfoss Product Store is your one-stop shop for everything product related—no matter where you are in the world or what area of the cooling industry you work in. Get quick access to essential information like product specs, code numbers, technical documentation, certifications, accessories,
