Technical Paper

Overview - *Danfoss Ally™* App software versions

Danfoss Ally™ App software

App	Version	Gateway	eTRV	Ally RS	Zigbee module	Repeater	Date	Improvements
iOS	1.0.6						2020-10-23	• Fixes a bug related to Ally™ Gateway pairing on iOS 14 • Various bug fixes and performance improvements
Android	1.0.6						2020-10-23	• Various bug fixes and performance improvements
iOS	1.0.7	5.27.8	1.08			1.0.6	2020-11-12	• Danfoss Zigbee Repeater integration (Repeater integration requires Ally™ Gateway firmware 5.27.8) • Status for devices in manual mode is now shown in the all devices list • Device sequence, device management and room management: new design • Minor bug fixes and design improvement
Android	1.0.7	5.27.8	1.08			1.0.6	2020-11-12	• Android 10 compatibility • Danfoss Zigbee Repeater integration (Repeater integration requires Ally™ Gateway firmware 5.27.8) • Status for devices in manual mode is now shown in the all devices list • Device sequence, device management and room management: new design • Minor bug fixes and design improvement
iOS	1.0.8	5.27.9					2021-01-28	• Pre-Heat feature optimized • Child lock and Vertical mounting settings enabled
Android	1.0.8	5.27.9					2021-01-28	• The App will show open window symbol when detected • The App will show when a room is set to a temporary set point • Temperature set points are synchronized in rooms with several radiators • Fixes a bug where the App showed -10 degrees in rooms • Fixes a bug that caused the power LED on Ally Gateway to turn off • Fixes a bug to secure correct battery level status in App • Set temperature for 'Planned Vacation' added • Introduces Automatic 'clear cache' feature • Minor bug fixes and performance improvement
iOS	1.0.9						2021-02-08	• UI Improvement • Minor bug fixes
Android	1.0.9						2021-02-08	• UI Improvement • Minor bug fixes
iOS		5.27.10					2021-05-05	• Fixes a bug related to automatic summer / wintertime (Daylight saving) • Support for Danfoss Ally™ Radiator Thermostat RU / Yandex voice assistant • Minor bug fixes and performance improvements
Android		5.27.10					2021-05-05	

Danfoss Ally™ App software

App	Version	Gateway	eTRV	Ally RS	Zigbee module	Repeater	Date	Improvements
iOS	1.10	5.27.11			2.14		2021-07-15	The new Danfoss Icon™ functionality:
Android	1.10	5.27.11			2.14 (0.1.4*)		2021-07-15	• Cooling mode • Child lock • Optional "Pre-heating" • Available forced cooling option in the app (requires application 5-10 to be installed) • Boiler relay can be triggered from the Ally™ Radiator Thermostat Bug fixes: • Fixes an issue with the Icon™ Zigbee Module going offline • Fixes an issue with battery indication for the Icon™ wireless thermostats • Fixes an issue with getting temperature information via voice assistant • Fixes an issue where is not all the Icon™ thermostats were shown in the app * Number in brackets shows software version as it is shown in Ally™ App
iOS	1.1.1			1.0.2			2021-11-18	• Support for Danfoss Ally™ Room sensor • Minor bug fixes
iOS			1.16 (0.1.0*)				2021-11-18	• Support for Danfoss Ally™ Room Sensor • Minor bug fixes * Number in brackets shows software version as it is shown in Ally™ App
Android			1.16 (0.1.0*)				2021-11-18	
iOS		5.27.12					2021-11-18	• Support for Danfoss Ally™ Room Sensor • Minor bug fixes and performance improvements
Android		5.27.12					2021-11-18	
iOS			1.18 (0.1.2*)				2021-12-02	• Fixes a bug that causes increased battery consumption * Number in brackets shows software version as it is shown in Ally™ App
			1.18 (0.1.2*)				2021-12-02	
iOS	1.1.3						2022-02-24	• Fixes a bug that caused the heating arrows/indicators to disappear • New weather module • Minor bug fixes and performance improvements
Android	1.1.3						2022-02-24	• New weather module • Minor bug fixes and performance improvements
iOS	1.1.6	5.27.16					2022-10-18	• Supports **Danfoss Icon2™** • Supports new HRV unit – **Danfoss Ally™ Air** • **Global holiday feature** – Plan holiday for all rooms using one button. • Measured room temperature is shown in the group tile • Minor bug fixes and performance improvements
Android	1.1.6	5.27.16					2022-10-18	
iOS			00.20 (V0.1.4*)				2022-11-25**	• Fixes a bug that may cause E6 Error state • Support for a new HW component • Various bug fixes and performance improvements * Number in brackets shows software version as it is shown in Ally™ App ** Date of SW release to production
Android			00.20 (V0.1.4*)				2022-11-25**	

Danfoss Ally™ App software

App	Version	Gateway	eTRV	Ally RS	Zigbee module	Repeater	Date	Improvements
iOS	1.1.8						2022-11-29	• Fixes a bug related to updating room list after changing Ally Home. • Fixes a bug related to 'My feedback' – create support tickets • Minor bug fixes and performance improvements
Android	1.1.8						2022-11-29	• Fixes a bug that prevents users from setting location in the Ally™ App • Fixes a bug related to updating room list after changing Ally Home • Fixes a bug related to 'My feedback' – create support tickets • API 31 implemented (New API from Google) • Minor bug fixes and performance improvements
iOS		5.27.18					2022-11-29	• Support for new Ally™ eTRV (New chip version – same features) • Fixes a bug that caused frequent reboot of the Ally™ Gateway • Fixes a bug that caused load balancing to not work • Fixes a bug that caused Ally™ Room Sensor to not work in all conditions
Android		5.27.18					2022-11-29	
iOS					2.15 (V0.1.5*)		2022-12-07	• Fixes an issue with Icon™ Zigbee Module going offline * Number in brackets shows software version as it is shown in Ally™ App
Android					2.15 (V0.1.5*)		2022-12-07	
iOS						V0.0.9*	2022-12-19	• Fixes an issue with Icon™ Zigbee Repeater going offline * Number in brackets shows software version as it is shown in Ally™ App
Android						V0.0.9*	2022-12-19	
iOS			1.20 (V0.1.4*)				2023-02-13	• Fixes a bug that may cause E6 Error state * Number in brackets shows software version as it is shown in Ally™ App
Android			1.20 (V0.1.4*)				2023-02-13	
iOS	1.1.9						2023-02-20	• Ordering filters is implemented • Manual bypass bug is fixed • Boost settings bug is fixed • Showing actual air volume bug is fixed • Showing actual ventilation level bug is fixed • Manual boost bug is fixed • Setting air flow level to Auto bug is fixed • Trend curves is removed – until the bug is fixed
Android	1.1.9						2023-02-20	
iOS		5.27.20					2023-02-20	• Fix of repeater heartbeat loss issue • Ally air requirement change logic: ECL mode enum value update
Android		5.27.20					2023-02-20	
iOS		5.27.26					2023-05-26	• Danfoss Icon2™ implementation and UI improvement • Minor bugs fixes and UI improvement
Android		5.27.26					2023-05-26	
iOS	1.2.1						2023-06-01	• Supports for Danfoss Icon2™ system
Android	1.2.1						2023-06-01	
Android	1.2.2						2023-10-19	• Minor bug fix and UI adjustments (Android 13, 14)

Danfoss Ally™ App software

App	Version	Gateway	eTRV	Ally RS	Zigbee module	Repeater	Date	Improvements
iOS		5.27.30					2023-10-23	• Danfoss Ally™ Boiler Relay implementation • UI improvement
Android		5.27.30					2023-10-23	
iOS		5.27.32					2023-11-27	• Danfoss Ally™ Boiler Relay degraded mode fix
Android		5.27.32					2023-11-27	
iOS			V0.1.12				2024-01-03	• Increased reaction speed in combination with Ally™ Room Sensor • Fixed issue with the battery status notification (from low to critically low) • Boiler Relay mode optimization • Heat request logic optimization • Cluster service improvement (for 3rd party integration purpose) • Other minor optimizations
Android			V0.1.12				2024-01-03	
iOS		5.27.33					2024-02-20	• Danfoss Ally™ Radiator Thermostat control improvement (new Data Points available)
Android		5.27.33					2024-02-20	
iOS	1.3.0						2024-04-17	• Bug fixes and performance improvement
Android	1.3.0						2024-04-17	
iOS	1.3.1						2024-04-24	• Implementation of Ecowatt/Ecogaz feature for France
Android	1.3.1						2024-04-24	
iOS	1.3.2						2024-08-14	• Optimizes & adapts Ally™ App and iOS17 performance
Android/iOS	1.3.2						2024-08-14	• Fixes Ally™ App group temperature is shown as "N/A" • Fixes Ally™ App Common member can cancel Vacation • Fixes Ally™ App Vacation button issue when switching homes • Minor bugs fix
