Pricing Terms and Effectivity

This price guide is effective beginning **1 January 2024** until **31 December 2024**.

The pricing shown in this price guide represents the list price which is also the maximum recommended sales price to end-users with Turbocor® compressors installed.

Compressor surcharges (e.g., tariff, exchange rate) and shipping costs are not included in the below pricing. Prices are subject to change at any time. Please contact your Account Manager for current pricing.

Prices are for units of one (1) each, unless otherwise specified.

Please refer to Danfoss Drives organization for pricing of Danfoss Drives spare parts.

Sales of items in this price guide are valid for established OEMs and Service Partners and not available to the general public. For a list of valid OEMs and Service Partners please visit <http://turbocor.danfoss.com>.

⁹ Part Number to be used is a combination of the 201055 Bearing Motor Compressor Control Kit (BMCC) and the XXXXXX is replaced with the appropriate software part number, E.g. 201055-183123. Part numbers for compressor software are located in product bulletins.

⁸ Part number is included with all Medium Temperature application compressors.

* Fixed Price only – no discount applied.

TurboTool® App

ENGINEERING
TOMORROW

Quick access to Danfoss TurboCor® compressor troubleshooting.

The new version of the **Danfoss TurboTool® 2.0** app for all your full service Danfoss TurboCor® compressor needs.

24/7
Access to Danfoss TurboCor® compressor troubleshooting on site.

The TurboTool® app makes it easy for both users to troubleshoot issues on Danfoss TurboCor® compressors.

The user can select from a list of symptoms in the app that match his or her own to be serviced. The app will then recommend causes, solutions to the problem, step-by-step instructions to follow for better resolution.

The app provides the correct sourcing parameters for key components, so need to keep safe and secure on hand.

Troubleshoot

Documents & Video

Spare Parts

You no longer need to keep thousands of pages of printed manuals and training manuals. With the app, all this information is at your fingertips in your smart device.

With the app, you can access videos made by Danfoss TurboCor® that demonstrate how to remove, install, and find key components on Danfoss TurboCor® compressors.

The TurboTool® helps you to quickly identify the required spare parts. A screenshot of the compressor serial number, your smartphone camera or by entering the part number manually and the app will display pertinent spare parts lists.

Download the 2.0 app today!

Danfoss Commercial Compressors

A worldwide manufacturer of compressors and condensing units for refrigeration and HVAC applications. With a wide range of high quality and innovative products we help your company to find the best possible energy efficient solution that respects the environment and reduces total life cycle costs.

We have 40 years of experience within the development of hermetic compressors which has brought us amongst the global leaders in our business and positioned us as distinct variable speed technology specialists. Today we operate from engineering and manufacturing facilities spanning across three continents.

Our products can be found in a variety of applications such as rooftops, chillers, residential air conditioners, heatpumps, coldrooms, supermarkets, milk tank cooling and industrial cooling processes.
