

## Tech Note

From Comfort Controls

Date: 2007-03-13

### FE elements in new colour

FE elements will change colour from white RAL 9010 to white RAL 9016. FE elements for heating will change scale and printing from black to grey colours. Climate elements will keep their blue and red colours.

The following code numbers will be changed:

013G5062	013G5458	013G5472	013L3565
013G5065	013G5461	013G5475	013L3568
013G5068	013G5462	013G5478	013L4461
013G5070	013G5463	013G5480	013L4462
013G5072	013G5464	013G5481	013L4463
013G5074	013G5465	013G8562	013L4466
013G5075	013G5466	013G8564	013L4467
013G5082	013G5467	013G8565	
013G5085	013G5468	013G8568	
013G5088	013G5469	013L3562	

## Delivery

The products will be implemented during week 12, meaning new products produced after week 12 will be white RAL 9016 with grey print in stead of black. There will still be old products on stock at CDC.
