Summary

We are closing HPP's sales codes for filter and anti-drip nozzles and letting our customers buy the Danfoss Burner components sales codes directly.

Description

Danfoss Burner components has been HPP's trusted supplier of filter nozzles for years. Due to their 75 years of experience in spraying technologies and in the spirit of "One Danfoss", we are closing the HPP's sales codes for filter and anti-drip nozzles to let HPP's customers buy the Burner components sales codes directly.

For both nozzle types, the sales to HPP customers will still be handled by HPP's sales managers, while the product management support for the nozzles will be provided by Danfoss Burner components.

Technical literature

Our technical literature for the filter and anti-drip nozzles will be taken down by January 15th, 2025.

You can find Danfoss Burner components' technical literature for the new sales codes here:

[Water nozzles | Danfoss](#)

[Water nozzles | Danfoss Global Product Store](#)
