

Data Sheet

Solenoid valve
Type **EV251B**

Compact servo operated with assisted lift for general purpose

EV251B with assisted lift is especially suitable for applications such as closed systems with low and fluctuating pressure conditions or open systems with differential pressure down to 0 bar.

EV251B valves are supplied complete, including coil and plug.

Features and versions

- For water, oil, compressed air and similar neutral media
- Clip on coil
- Ambient temperature: Up to 80 °C
- Coil enclosure: IP65

1 Portfolio overview

Table 1: Portfolio overview

Features	EV251B
	
Body material	Brass
DN [mm]	10-22
Connection	G3/8" - G1"
Sealing material	NBR
Function	NC
K_v [m³/h]	1.5-3.5
Differential pressure range [bar]	0-10
Temperature range [°C]	-10-90

2 Function

2.1 Function NC

Coil voltage disconnected (closed)

When the supply voltage to the coil (1) is disconnected, the valve plate (4), is pressed down against the pilot orifice (5), by the closing spring (3). The pressure across the diaphragm (6), is built up via the equalizing orifice (8). The diaphragm closes the main orifice (7), when the pressure above the diaphragm exceeds the inlet pressure below due to the larger diameter of the upper side and the compression of the closing spring (3). The valve will be closed for as long as the voltage to the coil is disconnected.

Coil voltage connected (open)

When the voltage is applied to the coil, the armature (2), and the valve plate (4), are lifted clear of the pilot orifice (5). If there is a differential pressure across the valve, the pressure across the diaphragm (6), drops because the pilot orifice is larger than the equalizing orifice. This causes the diaphragm to be lifted clear of the main orifice (7). If there is no differential pressure across the valve, the armature (2) draws the diaphragm (6) clear of the main orifice (7), using the assist spring (9.1) and assist connector (9.2). The valve will be open for as long as there is voltage to the coil.

Figure 1: Function NC

1	Coil
2	Armature

5	Pilot orifice
6	Diaphragm
7	Main orifice
8	Equalizing orifice
9	Assist
9.1	Assist spring
9.2	Assist connector

3 Applications

It is recommended to use a filter in front of the valve. Recommended filter 50 mesh (297 microns).

Figure 2: Filter

In water applications, exercise the valves at least once every 24 hours, meaning change the state of the valve. The valve exercise will minimize the risk of the valve sticking due to calcium carbonate, zinc or iron oxide build-up.

Figure 3: Exercise: Valve on/off

To minimize scaling, and corrosion attack it is recommended that the water passing the valve have the following values:

- Hardness 6-18 °dH to avoid scaling (chalk / lime stone build up).
- Conductivity 50 – 800 $\mu\text{S}/\text{cm}$ to avoid brass dezincification and corrosion.
- Above 25°C media temperature avoid stagnant water inside the valve to avoid dezincification and corrosion attack.

4 Product specification

4.1 Technical data

Table 2: Technical data

Media	NBR	For water, oil, compressed air and similar neutral media
Media temperature [°C]	NBR	-10-90°C
Ambient temperature [°C]	24V DC	Max 50°C
	24V/230V AC	Max 80°C
K _v value [m³/h]	DN10	1.5 m³/h
	DN12	2.5 m³/h
	DN18	3.5 m³/h
	DN22	3.5 m³/h
Min. Opening differential pressure [bar]	0 bar	
Max. Opening differential pressure [bar]	10 bar	
Max. working pressure [bar]	10 bar	
Max. test pressure [bar]	15 bar	
Viscosity [cSt]	Max. 50 cSt	

Capacity diagram

Example, water:

Capacity for EV251B 10 at differential pressure of 4 bar. Approx. 3 m³/h

Figure 4: Capacity diagram 10-22

Time to open/close

Table 3: Time to open/close

Main type	EV251B 10B	EV251B 12B	EV251B 18B	EV251B 22B
Time to open [ms] ⁽¹⁾	50	60	200	200
Time to close [ms] ⁽¹⁾	300	300	500	500

⁽¹⁾ The times are indicative and apply to water. The exact times will depend on the pressure conditions.

Materials

Table 4: Materials

Components	Materials	Specifications
Valve body	Brass	W.no. 2.0402
Armature	Stainless steel	W. no. 1.4105 / AISI 430FR
Armature tube	Stainless steel	W. no. 1.4306 / AISI 304L
Armature stop	Stainless steel	W.no. 1.4105/AISI 430FR
Springs	Stainless steel	W. no. 1.4310 / AISI 301
O-rings	NBR (Only EV251B 10 - other version are without o-ring)	
Valve plate	NBR	W. no. 1.4122
Diaphragm	NBR	

4.2 Dimensions and weights

Table 5: Dimensions and weight, brass NC

Type	Weight gross valve body with BB coil	L	L1	B	B1	H1	H
	[kg]	[mm]	[mm]	[mm]	[mm]	[mm]	[mm]
EV251B 10	0.58	51.5	78	48	46	13	81
EV251B 12	0.64	58.0	78	54	46	13	81
EV251B 18	0.94	90.0	78	62	46	18	87
EV251B 22	0.94	90.0	78	62	46	18	91

6 Online support

Danfoss offers a wide range of support along with our products, including digital product information, software, mobile apps, and expert guidance. See the possibilities below.

The Danfoss Product Store

The Danfoss Product Store is your one-stop shop for everything product related—no matter where you are in the world or what area of the cooling industry you work in. Get quick access to essential information like product specs, code numbers, technical documentation, certifications, accessories, and more.

Start browsing at store.danfoss.com.

Find technical documentation

Find the technical documentation you need to get your project up and running. Get direct access to our official collection of data sheets, certificates and declarations, manuals and guides, 3D models and drawings, case stories, brochures, and much more.

Start searching now at www.danfoss.com/en/service-and-support/documentation.

Danfoss Learning

Danfoss Learning is a free online learning platform. It features courses and materials specifically designed to help engineers, installers, service technicians, and wholesalers better understand the products, applications, industry topics, and trends that will help you do your job better.

Create your Danfoss Learning account for free at www.danfoss.com/en/service-and-support/learning.

Get local information and support

Local Danfoss websites are the main sources for help and information about our company and products. Find product availability, get the latest regional news, or connect with a nearby expert—all in your own language.

Find your local Danfoss website here: www.danfoss.com/en/choose-region.

Spare Parts

Get access to the Danfoss spare parts and service kit catalog right from your smartphone. The app contains a wide range of components for air conditioning and refrigeration applications, such as valves, strainers, pressure switches, and sensors.

Download the Spare Parts app for free at www.danfoss.com/en/service-and-support/downloads.
