DEVIfoil™ heating foil

(NO ONLY)

Product
is covered
by **EPD** *

DEVIfoil™ heating foil is delivered in rolls and must be equipped with supply

wiring on site. The heating foil is very flexible, available in different widths. You roll out the desired length and cut the foil at the cutting zones. Used as a base is DEVIpron™ 300 or Depron boards which protects the bottom side of the foil, and at the same time ensure that the heat is conducted up into the floor. The heating foil is used under wooden floors, parquet, laminate. Can also be

mounted between joists. Must always be controlled by an appropriate thermostat. DEVIfoil™ heating foil has high quality, and comes with 10-year full DEVIwarranty and 25-year product DEVIwarranty.

Benefits:

- Flexible in length, due to 25 cm panel length 5 different widths to suit any room
- Dry Installation
- No need to use screed or concrete
- Clean easy and fast installation
- Very low installation height

Standard compliance:

- IEC 60335-1: 2012 (with amendments)
- IEC 60335-2-96: 2002 (with amendments)

Compliance symbols:

CE ⓈIntertek

10 YEAR WARRANTY — Product · Installation · Floor/Surface

25 YEAR WARRANTY — Product

Type	Value
Nominal voltage	230 V~
Foil thickness	0,4 mm
Specific output	60 W/m²
Construction height: DEVIpron™ 300 Depron 3 mm Depron 6 mm	6,4 mm 3,4 mm 6,4 mm
The maximum load per one DEVIfoil™ line	6 A
Maximum fuse size	10 A (with 1,5 mm² of cold lead cross section) 16 A (with 2,5 mm² of cold lead cross section)
Max. permissible use temperature, Powered	80 °C
IP Class	IPX1
