

# Check valve

## NRV 10s H

for R744 (CO<sub>2</sub>)

## Description

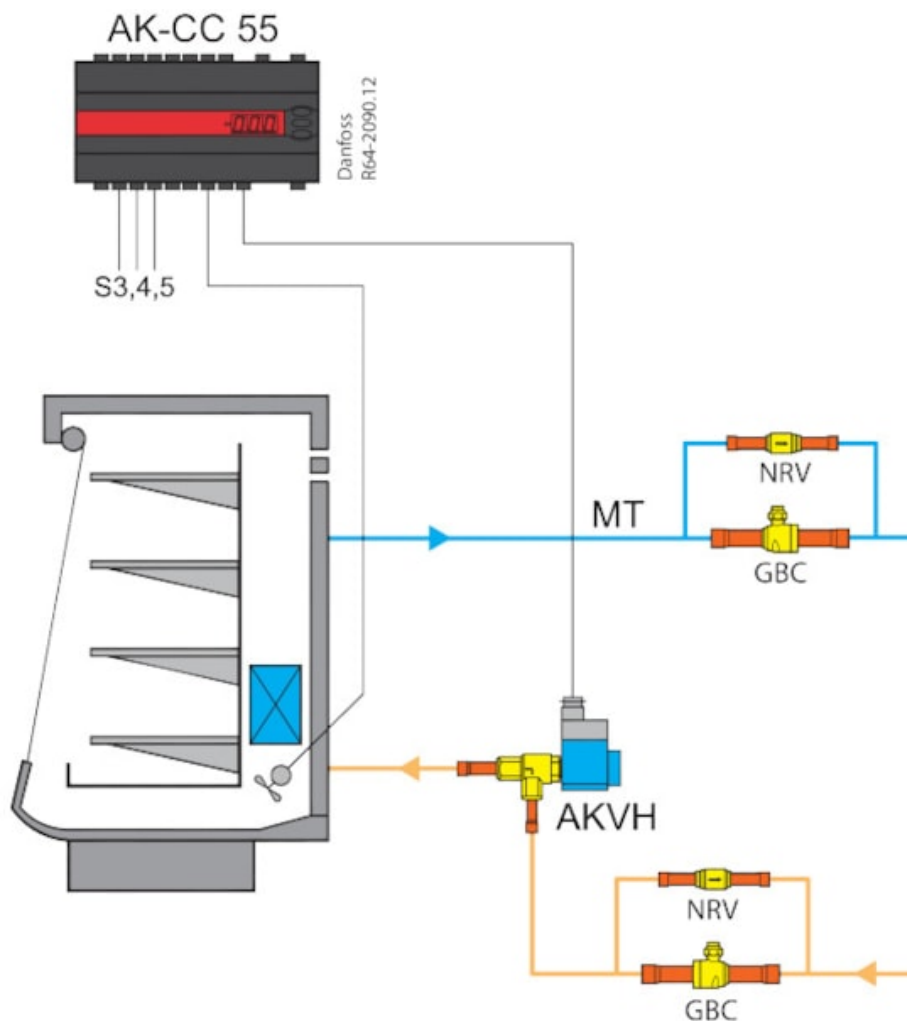

NRV 10s H check valves for R744 (CO<sub>2</sub>) can work as an internal relief valve when installed in parallel with GBC Ball Valves or service shut off valves, at the inlet and outlet of components to be serviced. The NRV 10s H can also be used in hot gas defrosting lines.

## Features & Benefits

- The valve ensures that refrigerant only flow in one direction
- Allows for internal pressure relief in the standstill system or during maintenance
- The valve can withstand 90 bar / 1305 psig differential pressure
- The valve can withstand 90 bar / 1305 psig maximum working pressure

## Applications

NRV 10s H for CO<sub>2</sub> can be installed at component inlet and outlet in parallel with GBC ball valve and function as relief valve to release the pressure in the stand-still system during maintenance.

When the NRV is used together with GBC in parallel as a pressure relief valve, it is recommended to install the NRV above the GBC.

## Product code numbers

Type	Outlet connection type	Outlet size [in]	Outlet size [mm]	MinODP [bar]	MinODP [psi]	Kv value [m <sup>3</sup> /h]	Cv value [gal/min]	Code number
NRV 10s H	Solder ODF	3/8 in		0.400	5.800	0.900	1.040	020B4000
NRV 10s H	Solder ODF		10.00	0.400	5.800	0.900	1.040	020B4300

## Product details

### General data

Refrigerants	R744 (CO <sub>2</sub> )
Oil	Oil POE, PAG
Media temperature range	-50 – 140 °C / -58 – 285 °F
Max. working pressure (PS/MWP)	90 bar / 1305 psig

#### Notes:

For the application use with R744 as part of a secondary loop or cascade:

1. The design pressure of the refrigerant containing component is not less than the design pressure of the associated components.
2. The component is not provided with any pressure relief or pressure regulating relief valve and that a sufficient number of valves having capacity deemed adequate shall be field-installed on the refrigeration system.
3. When the refrigeration system is de-energized, venting of R744 may occur through the pressure regulating relief valves, and may need to be recharged, but the valve should not be defeated or bypassed.
4. A sufficient number of pressure relief and pressure regulating valves may need to be provided based upon system capacity and located such that no stop valve is provided between the relief valve and the parts or section of the system being protected.

## Design

1. Copper tube
2. Solder ring
3. Washer
4. Sealing disk with special material
5. Piston
6. Spring
7. Valve body
8. Guide
9. Stop face
10. Solder ring
11. Copper tube

Dimensions & weights

ODF solder version - SI Units

Type	Connection type	Connection size		L [mm]	L1 [mm]	Φ D [mm]	Weight [kg]
		[in.]	[mm]				
NRV 10s H	Straightway Solder ODF	3 / 8		109	8	18	0.07
			10	109	9	18	0.07

ODF solder version - US Units

Type	Connection type	Connection size		L [in]	L1 [in.]	Φ D [in.]	Weight [lb]
		[in.]					
NRV 10s H	Straightway Solder ODF	3 / 8		4.29	0.31	0.71	0.15

## Certificates, declarations and approvals

The list contains all certificates, declarations, and approvals for this product type. Individual code number may have some or all of these approvals, and certain local approvals may not appear on the list.

When you click on the link you will be directed to the latest version of the 'Declaration of Conformity'. Products developed and sold before this date of issue conform to the directives/standards in force at the time of their sale.

## Contact details

### Online support

Danfoss offers a wide range of support along with our products, including digital information, software, mobile apps and expert guidance. See the possibilities below.

#### The Danfoss Design center

Discover the Design Center, our advanced digital platform that streamlines product selection. With integrated tools and enhanced type pages, it's simpler than ever to access product information and documentation, and to select the right products. Check the availability of Danfoss products at partner locations and enjoy seamless transitions from selection to purchase with our basket-to-basket functionality. Whether you're buying from our distributors or directly from the Product Store, the Design Center simplifies your experience. Learn more at: [designcenter.danfoss.com](https://designcenter.danfoss.com).

#### The Danfoss product store

The Danfoss Product Store is a one-stop shop available 24/7 for our customers, no matter where you are in the world or what area of industry you work in. Browse our catalog, check product details and documentation, view your prices and product availability, and quickly finalize your purchase. Start browsing at: [store.danfoss.com](https://store.danfoss.com).

#### Danfoss Partner Portal/Product Data tool

Designed to support you with easy access to product data extracts, essential resources, tools, and information. The Partner Portal provides a centralized hub for product documentation, training materials, marketing assets, and technical support, ensuring you have everything you need to succeed and grow your business with Danfoss. The Partner Portal is available 24/7 at: [partner.danfoss.com](https://partner.danfoss.com) and is ready to support your business.

#### Find technical documentation

Find technical documentation you need to get your project up running. Get direct access to our official collection of data sheets, certificates and declarations, manuals and guides, 3D models and drawings, case stories, brochures, and much more. Start searching now at: [documentation.danfoss.com](https://documentation.danfoss.com).

#### Danfoss Learning

Danfoss Learning is a free online learning platform. It features courses and materials specifically designed to help engineers, installers, service technicians, and wholesalers better understand the products, applications industry topics, and trends that will help you do your job better. Find your local Danfoss website here: [learning.danfoss.com](https://learning.danfoss.com).

#### Get local information and support

Local Danfoss websites are the main sources for help and information about our company and products. Find product availability, get the latest regional news, or connect with a nearby expert - all in your own language. Find your local Danfoss website here: [danfoss.com](https://danfoss.com).
