

DrivePro® Spare Parts

Original Danfoss Spare Parts at your fingertips

Maximize uptime and maintain peak performance throughout the lifetime of your Variable Frequency Drives and power converters with Drive-Pro® Spare Parts by making sure you are equipped with the original spare parts from Danfoss Drives.

Peace of mind

With DrivePro® Spare Parts, you can enjoy peace of mind knowing you have the right spare parts on hand for repair and maintenance.

To ensure you have the right spare parts available, we recommend purchasing maintenance and repair packages for your stock. This ensures access to the correct spare parts whenever they are needed.

The repair spare part packages are designed to provide immediate access to the required components in the event of a repair.

50%

Uptime increase of VFDs with the right spare parts.

Choose the right maintenance package

To prepare yourself for a planned maintenance, our individual maintenance packages provide the exact set of components that are naturally exposed to wear and tear (such as cooling fans, filters or capacitors).

Save Time

Save delivery time. By planning and stocking Danfoss Drives' optimized packages, you can react fast in the event of an unexpected breakdown and restore normal operations quickly.

Know your budget

You know the annual cost of spare parts inventory well in advance. This predictability gives you a strong business case and a stable, reliable budget.

Feature	Benefit
Original Danfoss spare parts at your fingertips	<ul style="list-style-type: none"> – Maximize your uptime and sustainability – World's most reliable drive components, with TS 16949 approval – 100% compatibility and durability – Best protection for your other equipment
Always the newest hardware and software revisions at delivery	<ul style="list-style-type: none"> – Operate at top efficiency – Save time on separate software updates
The right part at the right time thanks to tailored spare parts assortments	<ul style="list-style-type: none"> – Avoid unexpected cost for emergency support – Save precious time if downtime occurs – Only pay for what you need
Spare parts packages are aligned with maintenance plans	<ul style="list-style-type: none"> – Save time and cost in maintenance planning

Coverage

DrivePro® Spare Parts packages consist of specially selected, genuine OEM components, optimized to support both repair and maintenance needs. Individual spare parts are carefully chosen and bundled to ensure reliability and performance.

Individual DrivePro® Spare Parts

Over 6000 individual spare parts available for all Danfoss Drives brands repairs and maintenance needs.

Standard Package

An optimized set of recommended **components** tailored to your VFDs and power converters. The components in this package are selected based on service data collected by Danfoss over many years and can be expected to **cover at least 50% of service case repairs**.

You are guaranteed optimal operating time instead of long production stops due to lack of spare parts.

Advanced Package

A set recommended essential spare parts for a specific VFD or power converter ready **for critical repairs**. The components in this kit are selected based on service data collected by Danfoss over many years and can be expected to cover at least **80% of service cases**.

The kit allows the device to be repaired with a single visit by a DrivePro® Service technician.

Maintenance Package

Consists of a **full set of a fan spares or capacitors for a specific device type** and is intended primarily as an aid to routine maintenance.

This package **supports the schedule maintenance program** for your Danfoss VFDs and power converters.

How it works

Select the right spare part package

Contact Danfoss experts to help you select the best set of spares and maintenance parts for your VFD and power converter setup.

Place your order

Order DrivePro® Spare Parts together with your VFD or power converter or separately. Designed to suit your preferences.

Be prepared for the unexpected

Having the right spare parts at hand, you can react fast if an unexpected breakdown happens and restore operations quickly.

Match your order with your maintenance plan

For optimal planning, combine the spare parts order with DrivePro® Preventive Maintenance, which will save you time and cost in planning VFDs and power converters maintenance.

How to order

Contact your local sales office to request DrivePro® Spare Parts. Orders can be placed by email or by telephone.
