

# SiteService App

## for mobile diagnostic and service

Danfoss presents the SiteService App.

The SiteService App is targeted to the service technician and offers the ability to remotely connect to a Danfoss controls system. Once authorized, the technician gains full access to live plant status, alarms, history graphs and device settings. The SiteService App is designed to simplify some of the common service oriented tasks by providing a simple yet powerful interface to the most common areas of the Danfoss controls system.

# New

SiteService App  
on your smartphone  
or tablet from  
Google Play or  
App Store.
