Limitless control with ECTemp™ Smart App

With ECTemp™ Smart App, users can control as many thermostats and locations as they choose. This means easy access with the same app for the apartment, different rooms in the house as well as the holiday home.

Discreet and timeless design with a touch of the future

New ECTemp™ Smart complements even the most chic design interiors. The discrete and timeless design of the square-shaped touch-screen makes the ECTemp™ Smart pure and minimalistic in its form.

ECTemp Smart fits any single and multi frame with a 55 x 55 hole:

- ELKO, ELJO, JUSSI
- Legrand Valena and Gelea Life
- Gira Esprit, Merten M-smart, Schneider Exxact

Danfoss ECTemp™ Smart is compatible with following sensing units:

- NTC 6,8 kΩ at 25°C,
- NTC 10 kΩ at 25°C,
- NTC 12 kΩ at 25°C,
- NTC 15 kΩ at 25°C (Default),
- NTC 33 kΩ at 25°C,
- NTC 47 kΩ at 25°C.

Intuitive app control Smart features – energy saved

This is what you get:

- Stylish design that fits into your regular wall socket
- Open window detection automatically switches off the floor heating
- Smart control button for quick access to away and timer functions
- 7 day / 30 day / lifetime energy consumptions readout in the app for increased energy use awareness
- Control thermostats in unlimited locations (e.g. home, holiday home, office, etc.)
- Can be paired with up to 10 mobile devices via the Danfoss ECTemp™ Smart app
- Can communicate with two mobile devices simultaneously
- Receive notifications / warnings about important system events
- Access dedicated support and troubleshooting directly from the app

Safe and private cloud connection

Danfoss ECTemp™ Smart communicates through a safe cloud system based on the same security that is used in mobile banking applications. No data is stored in the cloud and your personal information is secure at all times.

Adjust your floor heating from your smartphone

Adjust home heating easily and intuitively with the remote control you know the best – via the internet. If the internet goes down, you can still operate locally without internet connection.

Schedule your home heating and reduce energy costs

Save energy by automatically lowering the temperature when you do not need it. Easily set the temperature to fit your rhythm and enjoy superior thermal comfort. Always.

Control all your thermostats in multiple locations

Danfoss ECTemp™ Smart App lets you stay in control and operate all your thermostats in multiple locations – e.g. your holiday home – from one single point of access.
