

# Up to 30% energy savings\* and more good reasons to choose **Danfoss Eco™**

- 1 Easy control via App:** The intuitive and user-friendly Danfoss Eco™ App gives you effortless in-home control of your radiator thermostat via Bluetooth.

Try a free demo version of the Danfoss Eco™ App

- 2 Easy connection to thermostat:** If you have a room with several radiator thermostats, the Danfoss Eco™ thermostat makes it easier to tell which unit you're managing. When connecting your smartphone to a thermostat, a red light illuminates when the connection attempt succeeds.

- 3 Very low noise level:** Danfoss Eco™ has best-in-class noise performance. The noise level of the thermostat is below 30 dBA, which means you'll sleep quietly through the night while saving energy.

## How to control **Danfoss Eco™**

**Download the Danfoss Eco™ App**

**Activate Bluetooth**

**Program each Danfoss Eco™ thermostat individually**

\* Up to 30% average European energy saving potential

## Smart Heating is about adjusting to your daily schedule

### – for better comfort and increased energy savings

The easiest way to save energy at home is to simply turn down your heating when you don't need it. The time you spend away from home, or asleep, offers a perfect opportunity to save money on heating – without even lifting a finger.

With our range of innovative Danfoss Smart Heating solutions, improving your indoor climate while saving money on energy has never been easier. Our solutions enable you to take full control of your home heating by using intuitive apps to schedule your heating according to your daily life.

Danfoss Smart Heating has a solution for every home and need – from a stand-alone smart radiator thermostat, to a complete Smart Heating system for total control – anytime, anywhere.

## Danfoss Link™

The complete Smart Heating experience from day one

Danfoss Link™ is a complete Smart Heating solution for larger houses and apartments that gives you full control of your home heating – anytime, anywhere.

- **Intelligent system adjusts your heating depending on where you are: at home, away, or asleep**
- **Works with both radiators and floor heating**
- **Wi-Fi solution: full remote control of home heating – no matter where you are**
- **Set individual temperatures for each room in your house. Control up to 30 radiators with user-friendly Danfoss Link™ App**
