

Intuitive app user interface

The Danfoss Ally™ App is literally all you need to control, schedule, and monitor your home heating – from anywhere and at any time.

No more control unit - now your smartphone is all you need to control and monitor all your radiators and floor heating.

Cost savings with scheduled heating

The Danfoss Ally™ App allows you to easily schedule your heating to match your daily life and routines. With unrivaled precision and up to 30% energy savings. Forgot to adjust your heating before leaving home? No problem. With the app, you can always turn down your heating on the go – and then up again – for a warm welcome back. With just a few clicks. Comfort up. Costs down. It's that smart.

Easy installation

Installing and setting up Danfoss Ally™ is as easy as 1-2-3. Simply follow the intuitive step-by-step guide in the Danfoss Ally™ App – and you're done within a matter of minutes! Danfoss Ally™ is compatible with 95% of all valves.

Your smart home – even smarter

Radiators, hydronic floor heating or both? Danfoss Ally™ offers a solution for every home and every need.

Discover the full product range and all the benefits about Danfoss Ally™ at ally.danfoss.com

Voice controlled

Danfoss Ally™ allows you to control your home heating with your voice simply by connecting to your favorite digital assistant. With simple voice commands, you can instantly adjust the heating if your need suddenly changes.

Open API – ready to embrace the future

One plus one often equals three. With its open API, Danfoss Ally™ allows other systems to connect, read, and utilize data – enabling endless possibilities for third party products to give you an even more connected experience.

Superior temperature precision

At Danfoss, we have pioneered temperature precision for decades. Since 1933 – to be precise. And today, ensuring superior temperature precision is still at the very core of our DNA. So much so, that we have built the Danfoss Ally™ software on top of our market-leading experience and expertise from the thermostat and valve industry.

Danfoss Ally™ is Danfoss' new front runner in smart heating solutions. Danfoss Ally™ is cloud based and you get full control of your radiator and hydronic floor heating from anywhere. With everything in control you are secured convenience and a perfect indoor climate.

The Danfoss Ally™ product offering includes:

- Danfoss Ally™ Gateway
- Danfoss Ally™ Radiator Thermostats
- Integration with Danfoss Icon™ intelligent control for your hydronic floor heating
- The full solution is controlled from the Danfoss Ally™ App, available from App Store and Google Play.

Danfoss Ally™ is your perfect match whether your home is heated with radiators, hydronic floor heating or a combination of both.

Danfoss Ally™ is Zigbee 3.0 certified. This means that it speaks the same wireless language as tons of other smart home devices around the globe. Allowing you to connect Danfoss Ally™ to your existing smart home setup. And to make your smart home even smarter.

For **gadget-freaks** and **design-lovers**

Danfoss Ally™ gives you all the benefits of a full-blown smart heating system – in a simple easy-to-use App. With Danfoss Ally™ you get full control of your radiator and hydronic floor heating as well as your heating bill. From virtually anywhere and at any time whether you're at home or on the go.

You can even control your heating system with your voice as Danfoss Ally™ speaks with all your other IoT friends.

Danfoss Ally™ is designed to bridge form and functionality. It's just as much a gadget for techies as it's a matter of uncompromising design, convenience and comfort.

Life is complicated enough as it is.
No need for your smart heating to be.

Compatible with iOS and Android

Danfoss Ally™ App is compatible with iOS and Android. Download the app for free from Google Play or App Store.
