H55-C Heat pump Condenser
For increased heat pump business

Innovative | Optimised | Low hold-up volume | High heat transfer | Compact | Rapid delivery

40% Reduction refrigerant
Charge compared to traditional BPHE. This new evaporator is the ideal solution to help you meet the world’s climate and energy aspirations.

Save $70
Per heat exchanger
On refrigerant because the H55-C’s low hold-up volume.

www.danfoss.com
**INTRODUCTION**

Condenser optimised for R407C in high efficiency residential heat pumps with capacities between 4-40 kW (13-136 kBTU/hr). The heat exchanger features innovative Micro Plate technology that improves heat transfer and reduces the amount of material used.

To meet demands for higher COPs in heat pumps, the H55-C is designed to work efficiently with close temperature approaches. The low hold-up volume reduces the refrigerant charge and offers valuable savings.

**KEY FEATURES**

- Minimal hold up volume: Less refrigerant charge
- High heat transfer: For a more efficient heat pump
- Smaller footprint: Enabling more compact heat pumps
- Reduced CO₂ footprint: Environmentally friendly with high heat transfer and minimal refrigerant charge

**STANDARD MATERIALS**

- Cover plates: AISI 304
- Connections: AISI 304
- Plates: AISI 316
- Brazing filler: Pure copper

Other material combinations are available on request. Please contact your Danfoss sales representative for more information.

**STANDARD CONNECTIONS**

Standard connections as per below are optimised for this product as condenser in heat pump system. For other connections, please contact your Danfoss representative.

- Q3 (Refrigerant outlet): soldering 1/4", 3/8" or 5/8"
- Q4 (Refrigerant inlet): soldering 1/2", 5/8" or 7/8"
- Q1-Q2 (Brine side): External threaded 1"

**THIRD-PARTY APPROVALS**

Europe: Pressure Equipment Directive (PED). America: Underwriters Laboratory Inc (UL). The third party approvals stated are standard for all our products. For details of other existing approvals or to discuss how we can meet your local needs, please contact your Danfoss representative.

**ACCESSORIES – STUD BOLTS**

Stud bolts on front and/or back plates for mounting support are available upon request. Please contact your Danfoss sales representative for further information.

**ACCESSIBILITY**

We will help you set up a logistic solution that will meet your needs.

**CORRESPONDING CONDENERS**

A corresponding MPHE for evaporator duties (H55-E) is also available, fully tested and ready for heat pump applications.
