H22L-C Heat pump Condenser
For increased heat pump business

Innovative | Optimised | Low hold-up volume | High heat transfer | Compact | Rapid delivery

Save $35
Per heat exchanger
On refrigerant because of the H22L-C’s low hold-up volume.

40% Reduction in refrigerant
Charge compared with a traditional BPHE. This new condenser is the ideal solution to help you meet the world’s climate and energy aspirations.
## INTRODUCTION

The H22L-C is a condenser optimised for R410A in small high-efficiency residential heat pumps with capacities between 2-10 kW (7-34 kBTU/hr). The heat exchanger features innovative Micro Plate technology that improves heat transfer and reduces the amount of material used.

To meet demands for higher COPs in heat pumps, the H22L-C is designed to work efficiently with close temperature approaches. The H22L-C is approved to 48 bar (696 psi) to cope with high water temperature applications such as the renovation market.

The design has been verified with regards to the defrost operation cycle. The low hold-up volume reduces the refrigerant charge and offers valuable savings.

## KEY FEATURES

- Minimal hold-up volume: Less refrigerant charge
- High heat transfer: For a more efficient heat pump
- Smaller footprint: Enabling more compact heat pumps
- Reduced CO₂ footprint: Environmentally friendly with high heat transfer and minimal refrigerant charge.

**STANDARD MATERIALS**

- Cover plates: AISI 304
- Plates: AISI 316
- Connections: AISI 304
- Brazing filler: Pure copper

Other material combinations can be provided upon request. Please contact your Danfoss sales representative for more information.

**STANDARD CONNECTIONS**

- Q3 (Refrigerant outlet): soldering 1/4”, 3/8” or 1/2”
- Q4 (Refrigerant inlet): soldering 1/2”, 3/4” or 7/8”
- Q1-Q2 (Brine side): External threaded 3/4”

**THIRD-PARTY APPROVALS**

Europe: Pressure Equipment Directive (PED). America: Underwriters Laboratory Inc (UL). The third-party approvals stated are standard for all our products. For details of other existing approvals or to discuss how we can meet your local needs, please contact your Danfoss representative.

**ACCESSORIES – STUD BOLTS**

Stud bolts on front and/or back plates for mounting support are available upon request. Please contact your Danfoss sales representative for further information.

**ACCESSIBILITY**

We will help you set up a logistics solution that will meet your needs.

**CORRESPONDING CONDENSERS**

A corresponding Micro Plate heat exchanger for evaporator duties (H22L-E) is also available, fully tested and ready for heat pump applications.
