Micro Plate Heat Exchanger
For increased chiller profits

C55L-C Condenser

35% charge compared with a traditional BPHE. The ideal solution to meet the world’s climate and energy aspirations.

C55L-C Condenser
Micro Plate Heat Exchanger

Introduction
The C55L-C is a condenser optimised for R410A for use in high-efficiency chillers with capacities of 10-65 kW. The heat exchanger features innovative Micro Plate technology that improves heat transfer and reduces the amount of material used.

To meet demands for higher seasonal efficiency, the C55L-C is designed to work efficiently and increase comfort in modern buildings without increasing the carbon footprint. Helping chillers perform more efficiently, it reduces both energy costs and environmental impact. The low hold-up volume reduces the system refrigerant charge and offers valuable savings.

Key features
- Minimal hold-up volume: Less refrigerant charge.
- High heat transfer: For more efficient chillers.
- Smaller footprint: Enabling more compact chillers.
- Reduced CO₂ footprint: Environmentally friendly with high heat transfer and minimal refrigerant charge.

Standard connections
Standard connections as per below are optimised for this product as condenser in chiller system. For other connections, please contact your Danfoss representative.

- Q3 (Refrigerant outlet): soldering 3/8", 1/2" or 5/8"
- Q4 (Refrigerant inlet): soldering 1/2", 3/4", 7/8" or 1 1/8"
- Q1-Q2 (Water side): External threaded G 1" or G 1 1/4"

Third party approvals
Europe: Pressure Equipment Directive (PED). America: Underwriters Laboratory Inc (UL). The third party approvals stated are standard for all our products. For details of other existing approvals or to discuss how we can meet your local needs, please contact your Danfoss representative.

Accessories – stud bolts
Stud bolts on front and/or back cover plates for mounting support are available upon request. Contact your Danfoss sales representative for further information.

Accessibility
We will help you set up a logistics solution that will meet your needs.

Corresponding evaporators
A corresponding micro plate heat exchanger for evaporator duties (C55L-E) is also available.
