

Electric floor heating | Danfoss ECtemp™ Smart

Revolutionary wireless heating control with the new ECtemp™ Smart

Discover a brand new level of electric floor heating control. The discreet and timeless design of the square-shaped touchscreen makes the ECtemp™ Smart fit perfectly into any modern design interior.

Up to **30%** savings with intelligent timer and many other smart features

Discover a brand new level of electric floor heating comfort and control

The new ECtemp™ Smart is an intuitive and intelligent timer thermostat with WiFi connectivity and can be controlled from anywhere, at any time with the ECtemp™ Smart App.

Intuitive mobile app control

The ECtemp™ Smart App turns your customers' mobile device into an intuitive floor heating remote control.

Discrete and timeless design

ECtemp™ Smart is designed to complement even the most chic design interiors. The square-shaped touchscreen makes the ECtemp™ Smart pure and minimalistic in its form.

Reduce energy costs

Save energy by following your scheduled heating demands and automatically lowering the temperature when you do not need it. Easily set the temperature to fit your rhythm and enjoy superior thermal comfort.

Multi-frame compatibility

ECtemp™ Smart is available in three colors – pure white, polar white and pure black. This controller is compatible with almost all frames and sensors already existing on the market and can effortlessly be integrated into existing systems.

Key features

- ✓ Advanced energy saving features
- ✓ Intuitive mobile app control
- ✓ Multi-frame compatibility
- ✓ Discrete and timeless design
- ✓ WiFi connectivity for mobile application
- ✓ Fast and easy installation

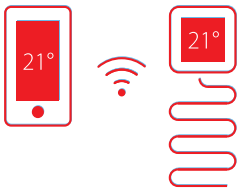

5
 YEAR
 WARRANTY

Danfoss ECtemp™ Smart electronic room thermostats come with a 5 year warranty.

Smart features give you superior **comfort and energy savings**

Adjust your floor heating from your smartphone

Adjust home heating easily and intuitively with the remote control you know the best – via the internet. If the internet is temporary disconnected, you can still operate locally without on-line connection.

Schedule your home heating and save energy

Save energy by automatically lowering the temperature when you do not need it, intelligent start, Puls Width Modulation as well as intelligent drop-off. Easily set the temperature to fit your rhythm and enjoy superior thermal comfort. Always.

Control all your thermostats in multiple locations

The ECtemp™ Smart App lets you stay in control and operate all your thermostats in multiple locations – e.g. your holiday home – from one single point of access.
