For more than 40 years, Danfoss has been developing state-of-the-art components and systems for mobile machinery used in off-highway operations around the world.

We have become a preferred supplier by offering the best of what really matters: The hardware inside your vehicle application.

The H1 range is built around an advanced control and available in a wide range of displacements. It is designed for quality and reliability and offers expanded functionality, greater total efficiency, and easy installation.

All H1 control and sensor options are PLUS+1® Compliant. PLUS+1® allows you to rapidly develop and customize electronic machine control. It opens up the future by combining machine controls and diagnostics in an integrated operating network.

**Features**

**Designed for quality and reliability**
- One design concept
- Single piece swash plate

**Wide range of controls**
- Electro-hydraulic controls:
  - Electrical Displacement Control (EDC)
  - Forward-Neutral-Reverse (FNR)
  - Non-Feedback Proportional Electric (NFPE)
- Automotive Control (AC)
- Fan Drive Control (FDC)
- Manual Displacement Control (MDC)
- Common control across entire family

**Greater total efficiency**
- Minimized control losses
- Improved charge circuit
- Lower control pressure for less power consumption

**Installation and packaging benefits**
- Length optimized pump
- Minimum one clean side
- Higher corner HP / package size ratio
- Standardized connector interface

**Expanded functionality**
- PLUS+1® Compliant control and sensor options

For more information see the H1P 210/250 Axial Piston Single Pumps Technical Information, BC0000207.

*Pressures above max. working pressure requires Danfoss approval.

A/B system ports: Ø38 mm, 450 bar split flange boss per ISO 6162, M16 x 2; 27 min. full thread depth
MA/MB (system), M3 (charge) gauge ports per ISO 11926-1: 7/16–18
M4, M5 (servo), M14 (case) gauge ports per ISO 11926-1: 7/16–20
L2, L4 – Case drain ports per ISO 11926-1: 15/16–12

E/F – Charge filtration ports per ISO 11926-1: 1 1/16–12
S – Charge inlet port per ISO 11926-1: Ø38 mm, 350 bar split flange boss per ISO 6162, M12 x 1.75; 21 min. full thread depth
1 – Case pressure port per ISO 11926-1: 1 1/16–12
2 – Connector DEUTSCH DT04-2P, to be paint free
