In order to start design the project, please provide all initial required data.

Pipeline data

1. **Operation voltage:** _____ V
2. **Pipe material:**
   ☐ Plastic
   ☐ Metal
3. **Pipe diameter without insulation:** _____ mm
4. **Insulation thickness:** _____ mm
5. **Coecient of thermal conductivity of insulation:** _____ W/(m·°C)
6. **Total length of pipeline:** _____ m
   * Or send the drawings of all pipelines.

a. **Desired maintained temperature:** _____ °C
b. **Outside temperature:** _____ °C
c. **How many special equipment on the pipe:**
   ☐ Elbows: _____
   ☐ Valves: _____
   ☐ Flanges: _____
   ☐ Pumps: _____

8. **Desired heating elements:**
   ☐ Resistive cables: _____
   ☐ Self-limiting cables: _____
9. **Control system:**
   ☐ DEVIreg™ 330 (60…160 °C)
   ☐ DEVIreg™ Multi
   ☐ ECtemp Next Plus HW
10. **Comments and Special Remarks:**
