Self-limiting heating cable

DEVI pipeguard™ 10 LSZH (T)
Low Smoke Zero Halogen

Description:

The DEVIpipeguard™ LSZH (T) is a **halogen free** self-limiting heating cable. The self-limiting capability of the cable ensures that the output of the cable may increase or decrease according to ambient temperature. The cable will maintain its functionality even when shortened.

The outer sheath is highly resistant to harsh environmental conditions and corrosion and it also serves as a protection against mechanical influences.

NB: The cables are not approved for use in drinking water.

Applications:

- Pipes frost protection
- Tanks frost protection
- Sprinkler systems during winter period

Values and benefits:

- New and improved cable characteristics
- Health and Safety friendly

NEW cables' advantages proven by tests:

- Contains minimum of toxic substances (no Fluorine, Chlorine, Bromine, Iodine & Astatine)
- Emits minimum harmful substances in case of fire (transforms to white powder instead of soot)
- Easier cleaning in case of fire
- Decreases possible financial loss à Lower Total Cost of Ownership (TCO)
- Successfully passed halogen free capabilities testing proving that it provokes lower smoke development and toxic substation emissions
- "Low Smoke" definition indicates that the cable does not emit heavy black smoke in case of fire. White smoke allows to easier detect fire exits
- "Zero Halogen" definition indicates that there are no halogen substances in the cable
- Successfully passed the IEC 60800:2009 8.2.2 (8.2.2.1, 8.2.2.2, 8.2.2.3) water immersion and temperature cycling test.
