

Service product description

DrivePro® Start-up

DrivePro® Start-up is a service that supports customers by fine-tuning their Danfoss AC drives for optimal performance, right from day one. It takes the complexity out of commissioning AC drives.

DrivePro® Start-up includes comprehensive inspection of customers' AC drive installations, as well as a full range of health checks and adjustments to aid smooth and straightforward commissioning.

To support the technicians delivering the DrivePro® Start-up service and to ensure its consistency everywhere in the world, Danfoss has developed a special checklist and coordination tools which can easily be accessed via the DrivePro® Start-up app for Danfoss and DrivePro® certified Service Partners.

The DrivePro® Start-up service is provided to suit the customers' time schedule. It provides them with peace of mind that their AC drives are installed and configured correctly.

DrivePro® Start-up eliminates unforeseen problems and issues during the start-up process as well as ensuring that customers' AC drives are fine-tuned for optimal performance.

Because of its fixed pricing and easy-to-quote set-up, Danfoss sales teams can easily add DrivePro® Start-up to all AC drive projects and applications.

The service provides:

- Fine-tuning of customers' AC drives for optimal performance
- Full range of health checks and adjustments
- Simple ordering set-up
- Energy consumption optimization for AC drives
- Fixed-price solution

The service does not include:

- Drive installation
- Repair work and spare parts for repair

Customers are responsible for ensuring that:

- All equipment is installed in line with Danfoss instructions and all applicable local codes
- All necessary control and power wiring is in place
- All processes are ready and available by the agreed date

Other conditions

- If the customer wants specific personnel and contractors present during start-up, they must make the necessary arrangements
- The customer must notify Danfoss of any changes to the schedule at least 24 hours before the agreed time and date of start-up
- When start-up has been successfully completed, the customer must sign the start-up report
- The start-up process provides environmental data that eliminates the need for audit inspections for the preventive maintenance service

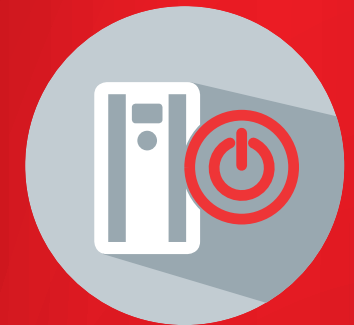

Other terms

According to local legislation, Danfoss' General Terms and Conditions of Sale & Terms and Conditions for the Sale of Services.
