Virtual instructor-led courses are delivered electronically (live) each day. Each daily session is four-hours in length (unless otherwise specified) with breaks in between topics. Each session incorporates live demonstrations, product materials and instructor interaction via the internet, allowing for an up-close and personal learning experience. Participants will interact with instructors and other attendees, see live demonstrations of equipment, and engage in classroom activities and group discussions in real time, creating a personalized learning environment much like you would experience if you were physically in the classroom. Academic testing is accomplished via the internet, utilizing secure professional web-based software. Once linked to the internet, and using nothing more than your computer, web-camera and microphone, you can join our Virtual Classroom from the convenience of your computer regardless of location. Requirements include: valid email address, personal computer, access to the internet, web camera and phone line or headset to be used with a computer. Course materials will be shipped prior to start of class. Schedule is subject to change. Please contact hydraulicstraining@danfoss.com for most up-to-date schedule. (Rev date 9/20/22)

TO REGISTER: Email hydraulicstraining@danfoss.com or call (800) 413-8809

Registrations/cancellations must be received no later than 3 weeks prior to start of class.
