Industrial Hydraulics Manual

Your Comprehensive Guide to Industrial Hydraulics

Industrial Hydraulics Manual

(TC-101-T)

1-7 qty - \$112.25 ea

8+ qty - \$84.00 ea

ISBN: 979-8-218-15800-2

The **NEW Industrial Hydraulics Manual** is now available and is a color-illustrated, 600+ page, hard-bound textbook.

This book covers everything you need to know about hydraulics and electrohydraulics, including the principles of basic hydraulics, basic electricity and electronics, amplifiers, cartridge valves and circuits. A systems chapter focuses on the operation of industrial hydraulic circuits and injection molding systems.

Included in the appendices are commonly used formulae, conversion charts, tables that can be used as on-the-job reference materials, and much more. Additionally, we have included metric values throughout the textbook.

Chapter Topics:

- An Introduction to Hydraulics
- Principles of Hydraulics
- Hydraulic Fluids
- Hydraulic Fluid Conductors and Seals
- Reservoirs
- Contamination Control
- Hydraulic Actuators
- Directional Valves
- Electrical Principles and Operational Amplifiers
- Pressure Controls
- Flow Controls
- Cartridge and Stack Valves
- Proportional Valves
- Servo Valves
- Hydraulic Pumps
- Basic Digital Electrohydraulic Devices
- Accessories
- Systems

Additional Materials Offered:

Answer Key (TC-101-A)

\$18.50 ea

Graphics Flash Drive (TC-101-FD)

\$120.75 ea

Save by purchasing bundles!

Textbook/Answer Key/Flash Drive (TC-101-B-1) - \$226.50 ea

Textbook/Answer Key - (TC-101-B-2) - \$118.00 ea

Industrial Hydraulics Manual Answer Book contains the answers to all of the questions shown in the 7th edition of the Industrial Hydraulics Manual. It was written for instructors who are currently using our textbook as a training aid in their classrooms.

Industrial Hydraulics Manual Graphics Flash Drive consists of almost 600 images from the Industrial Hydraulics Manual. These PowerPoint slides are in order and broken down in the same way as the Industrial Hydraulics Manual. It is the perfect companion for anyone who wishes to teach from the best textbook in the fluid power training industry.
