

Learning Center | Danfoss Turbocor®

2023 Training Schedule

Purpose

Danfoss offers Turbocor Field Service Training to customers around the world. Our training classes are designed to provide the necessary information for service, maintenance, and troubleshooting of Danfoss Turbocor products and their applications. Highly qualified and field-experienced instructors of the Danfoss Turbocor Learning Center will provide participants with greater comprehension and the transferable skills to ensure that customers get the most of their Danfoss Turbocor products.

Turbocor Field Service Trainings

TT/TG Specific:

- TT/TG Service, Maintenance and Troubleshooting Certification

VTT/VTX Specific:

- VT Service, Maintenance and Troubleshooting Training

Turbocor Field Service Training Dates 2023

The following dates are scheduled for classes to be held at our Tallahassee, Florida, USA training facility.*

TT/TG Specific: **

September 19-20

October 17-18

November 14-15

December 12-13

VTT/VTX Specific:

November 7-8

* To ensure a quality training experience, Danfoss Turbocor training classes require a minimum total of six registrations. If you register and pay for a class that does not meet this requirement, we will notify you of the cancellation, and we will roll you to the next scheduled class. In the unlikely event that a class is cancelled, to accommodate for any inconvenience, participants are **guaranteed** the commencement of the next available class.

** The TT/TG Service, Maintenance and Troubleshooting Certification requires completion of the Turbocor Curriculum through the Danfoss Learning Portal.

Use this link to freely register for the Turbocor Curriculum: [Danfoss Turbocor® TT&TG Compressor Training Program](#)

Once you have decided on a date that you would like to attend, please use the link below to view pricing and to purchase your training. Seats cannot be reserved unless payment is made.
