

# RED – Radio Equipment Directive 2014/53/EU, including RED DA 2022/30, **effective from 1 August 2025**

01

## What is RED?

RED stands for Radio Equipment Directive. It represents the EU's legal requirements that ensure that all wireless and radio-based equipment is safe to use and protects data and networks. Without RED approval, products cannot be CE marked and thus cannot be legally sold in the EU.

02

## New requirements from 1 August 2025

From this date, cybersecurity requirements will be added to RED DA.

Products must:

1. Protect networks from misuse
2. Secure personal data and privacy
3. Prevent digital fraud

03

## Danfoss Icon2™

Danfoss Icon2™ floor heating is fully RED DA approved, meaning that Icon2™ has been tested and meets the RED DA requirements. You can therefore safely use Icon2™ throughout the EU, both now and after 1 August 2025.
